#### **Independent Auditors' Report**

Directors and Members of the Board Moapa Valley Water District Overton, Nevada

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the major fund of Moapa Valley Water District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the major fund, of Moapa Valley Water District, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

Report on Summarized Comparative Information

We have previously audited Moapa Valley Water District's financial statements for the year ended June 30, 2020, and our report dated November 20, 2020, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules related to pensions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Moapa Valley Water District's basic financial statements. The budgetary comparison information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The budgetary comparison information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 13, 2021, on our consideration of Moapa Valley Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Moapa Valley Water District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This page intentionally left blank.

As management of Moapa Valley Water District (the District), we offer readers of the District's financial statements this narrative overview and analysis of financial activities of the District for the fiscal year ended June 30, 2021.

#### FINANCIAL HIGHLIGHTS

- \*Total net position for the District as a whole increased by \$960,484
- \*Total unrestricted net position for the District as a whole increased by \$178,868
- \*Operating revenues increased by \$416,105
- \*Operating expenses increased by \$70,238
- \*Net income from non-operating items decreased by \$54,598

#### BASIC FINANCIAL STATEMENTS

The District is a special-purpose government engaged in business-type activities. All transactions related to its activities are recorded in a single enterprise fund. Enterprise funds are used to account for operations financed and operated in a manner similar to private business enterprises where the intent is that the cost of providing goods and services (including depreciation), on a continuing basis, be financed or recovered primarily through user charges.

The financial statements presented in this report are those required of an enterprise fund and consist of (1) the statement of net position, (2) the statement of revenues, expenses, and changes in net position, (3) the statement of cash flows, and (4) the notes to the financial statements.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating. However, other non-financial factors need to be considered as well.

The statement of revenues, expenses, and changes in net position (the income statement) presents information about the amounts of revenues, expenses, and resulting net income for the year. Net income is the change in net position. All items of income and expense are reported as soon as the underlying event giving rise to those items occurs, regardless of the when cash is received or paid.

The statement of cash flows starts with the amounts of net income and removes the non-cash portion (the receivables and payables which did not provide or use cash), thus converting the amounts to a cash basis.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements are reported later in this report; see Table of Contents.

**Other information**. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District.

#### FINANCIAL ANALYSIS

#### Moapa Valley Water District's Net Position

	Current Previous			
	Year	Year Year		Change
Current and other assets	\$ 8,321,912	\$ 8,313,418	\$	8,494
Non-current assets	20,271,599	20,275,655		(4,056)
Deferred outflows of resources	346,579	353,224		(6,645)
Total assets and deferred outflows	\$ 28,940,090	\$ 28,942,296	\$	(2,206)
Long-term debt outstanding	\$ 4,210,244	\$ 4,940,472	\$	(730,228)
Other liabilities	2,727,204	2,859,799		(132,595)
Deferred inflows of resources	289,296	389,164		(99,867)
Total liabilities and				
deferred inflows	7,226,745	8,189,435		(962,690)
Net position:				
Net investment in capital assets	16,061,355	15,335,183		726,172
Restricted	556,184	500,740		55,444
Unrestricted	5,095,807	4,916,938		178,868
Total net position	\$ 21,713,345	\$ 20,752,861	\$	960,484

As noted earlier, net position may serve over time as a useful indicator of financial position. Total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources at the close of the year by \$21,713,345, an increase of \$960,484 from the previous year. This change is equivalent to the net income for the year, in private sector terms.

Total unrestricted net position at the end of the year are \$5,095,807, which represents an increase of \$178,868 from the previous year. Unrestricted net position are those resources available to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements.

The amount of current and other assets represent the amounts of cash and receivables on hand at the end of each year. Other liabilities are the amounts of current and other liabilities due, at year end, for goods and services acquired.

Changes in capital assets are the result of the difference, in the current year, of the cost of acquisition of capital assets and any depreciation charges on capital assets. Change in long-term debt is the difference in the amount of debt issued and that which has been paid during the year.

#### FINANCIAL ANALYSIS (continued)

#### Moapa Valley Water District's Change in Net Position

	Current Year	Previous Year	Changa
Operating income:		I cai	Change
Service income	\$ 4,180,189	\$ 3,766,485	\$ 413,705
Connection fees	30,000	27,600	2,400
SNWA contract	200,000	200,000	2,400
Total operating income	4,410,189	3,994,085	416,105
Operating expenses:			
Depreciation and amortization expense	856,344	823,820	32,524
Other operating income	2,924,729	2,887,015	37,714
Total operating expenses	3,781,073	3,710,836	70,238
Net operating income (loss)	629,116	283,249	345,867
Non-operating items:			
Revenues	594,209	554,389	39,819
Expenses	(262,841)	(168,423)	(94,417)
Total non-operating items	331,368	385,966	(54,598)
Net income (loss)	\$ 960,484	\$ 669,215	\$ 291,269

Service income increased by \$413,705 from the previous year. Connection fee income increased by \$2,400.

Depreciation and amortization expense increased from the amount of the previous year by \$32,524. Other operating expenses increased by \$37,714 compared to the previous year, resulting in a yearly net operating income of \$629,116

Net non-operating items decreased by \$54,598 compared to the previous year.

#### **BUDGETARY HIGHLIGHTS**

The District operates as an enterprise fund and is required to comply with the operating budget on an entity-wide basis.

	Original	Amended	Actual
Revenues	\$ 4,006,000	\$ 4,448,144	\$ 5,004,398
Expenses	3,342,500	4,297,316	4,043,914
Net income	\$ 663,500	\$ 150,828	\$ 960,484

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Moapa Valley Water District's Capital Assets (net of depreciation)

	Current	Previous	
	Year	Year Year	
Net Capital Assets:			
Land	\$ 218,296	\$ 218,296	\$ -
Water shares	2,097,355	2,097,355	-
Buildings and improvements	1,490,637	1,480,092	10,545
Equipment and distributions system	29,765,862	29,192,724	573,138
Furniture and fixtures	175,563	157,732	17,831
Vehicles	790,480	577,498	212,982
Intangible assets	12,495	12,495	-
Construction in progress	419,904	381,998	37,906
Total	34,970,592	34,118,190	852,402
Less accumulated depreciation	(14,698,993)	(13,842,649)	(856,344)
Net Capital Assets	\$ 20,271,599	\$ 20,275,541	\$ (3,942)

Additional information regarding capital assets may be found in the notes to financial statements.

#### Moapa Valley Water District's Outstanding Debt

	Current	Previous	
	Year	Year	Change
Long-term debt:			
2013A Refunding Bond	\$ 265,000	\$ 385,000	\$ (120,000)
2015 GO Refunding Bonds	695,000	1,060,000	(365,000)
2008 GO Water Bonds	687,955	775,824	(87,869)
2017 GO Refunding Bonds	2,352,833	2,471,455	(118,622)
Less deferred bond issue costs	(2,201)	(2,935)	734
Plus deferred issuance premium	211,658	 251,128	 (39,470)
Total	\$ 4,210,244	\$ 4,940,472	\$ (730,227)

Additional information regarding the long-term liabilities may be found in the notes to financial statements.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

No significant economic changes that would affect the District are expected for the next year. Budgets have been set using the same factors as the current year being reported.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Moapa Valley Water District's finances for all those with an interest in the District's finances. Questions concerning any information provided in this report or requests for additional financial information should contact the District's office at 601 N. Moapa Valley Boulevard, Overton, Nevada 89040.

Non-cash capital and related financing activities: Amortization of bond premiums and discounts	\$ 43,367	\$ 43,367

June 30, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 1-A. Reporting entity

Moapa Valley Water District (the District) is a political subdivision of the State of Nevada governed by a five-member board of directors elected in conjunction with the general election of Clark County. The District provides water services to the unincorporated townships of Glendale, Logandale, Moapa and Overton. Effective July 22, 1983 the assets and liabilities of the Moapa Valley Water Company and the Overton Water District were merged into a single entity to create the District.

#### 1-B. Government-wide and fund financial statements

Government-wide financial statements display information about the District as a whole. The financial statements presented are those required of an enterprise fund and consist of the statement of net position, the statement of revenues, expenses, and changes in net position and the statement of cash flows. The District is considered a special-purpose government engaged in business-type activities and records all of the transactions related to its activities in a single enterprise fund. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost of providing goods and services (including depreciation), on a continuing basis, be financed or recovered primarily through user charges. No fiduciary funds or components that are fiduciary in nature are included.

#### 1-C. Measurement focus, basis of accounting, and financial statement presentation

Measurement focus is commonly used to describe the types of transactions and events that are reported in a fund's operating statement. The operating statement of an enterprise fund focuses on changes in, or the flow of, economic resources. With this measurement focus, all assets and liabilities associated with the operation of the fund, both current and non-current, are included on the statement of net position. Thus, net position (total assets and deferred outflows less total liabilities and deferred inflows) are used as a practical measure of economic resources.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. As a practical matter, a fund's basis of accounting is inseparably tied to its measurement focus. Funds that focus on total economic resources employ the accrual basis of accounting, which recognizes increases and decreases in economic resources as soon as the underlying event or transaction occurs. Under accrual accounting, revenues are recognized as soon as they are earned and expenses are recognized as soon as a liability is incurred, regardless of the timing of related cash inflows and outflows.

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and services. The District also recognizes the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

June 30, 2021

#### 1-D. Assets, liabilities, and net position or equity

#### 1. Cash and cash equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### 2. Cash and investments

Cash balances are invested as permitted by law. Investments are recorded at lower of cost or market.

Pursuant to NRS 355.170, the District may only invest in the following types of securities:

- United States bonds and debenture maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Securities of the United States Treasury, United States Postal Service, or the Federal National Mortgage Association maturing within ten (10) years from the date of purchase.
- Negotiable certificates of deposits from commercial banks and insured savings and loan associations within the State of Nevada
- Certain securities issued by local governments of the State of Nevada.
- Other securities expressly provided by other statutes, including repurchase agreements.

#### 3. Receivables and payables

Accounts receivable represent water usage billings for which payment has not yet been received. Due to the nature of such receivables and the District's ability to collect them, an allowance for doubtful accounts has not been provided.

#### 4. Inventories and prepaid items

Inventories are valued at cost using the weighted average method. The inventory consists of water parts. At various times, certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

#### 5. Restricted assets & net position

The difference between total assets and total liabilities represents equity or net position. Net position presented in the statement of net position is subdivided into four categories: net investment in capital assets; restricted net position; unrestricted-designated net position; and unrestricted net position. Restricted net position is comprised of required reserves as dictated by the Nevada Capital Improvement Grants Program. Unrestricted-designated net position represents resources set aside at the direction of the board for special purposes.

#### 6. Capital assets

All purchased capital assets, which include property, plant, and equipment, are carried at cost or estimated historical cost. Contributed capital assets are valued at estimated fair market value on the date received. Capital assets are defined as items with an initial, individual cost of more than \$5,000 and an expected life of more than two years. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

June 30, 2021

#### 1-D. Assets, liabilities, and net position or equity (continued)

#### 6. Capital assets (continued)

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	<b>Years</b>
Buildings and improvements	15-40
Distribution system	7-40
Wells	10-40
Equipment	5-15
Trucks and autos	5
Office equipment	3-7

#### 7. Long-term obligations

Long-term debt and other long-term obligations are reported as liabilities.

#### 8. Compensated absences

The District has a policy allowing compensated benefits to permanent employees for both sick and vacation leave. At year-end, the compensated absence liability is \$260,469.

#### 9. Use of estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### 10. Prior year summarized comparative information

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2020, from which the summarized information was derived.

#### 11. Restricted net position

The District's restricted net position was comprised of the following balances at year-end:

Nevada Capital Improvement Grant Reserve	\$ 556,184
Total restricted net position	\$ 556,184

June 30, 2021

#### 1-D. Assets, liabilities, and net position or equity (continued)

#### 12. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports deferred outflows relating to pension as required by GASB 68.

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The District reports deferred inflows relating to pensions as required by GASB 68. In addition, the District reports deferred inflows related to refunding bonds issued in prior years.

#### 13. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### 2-A. Budgetary information

The District adheres to the Local Government Budget Act incorporated within state statutes, which include the following major procedures to establish the budgetary data which is reflected in these financial statements.

- 1. On or before April 15, the District's Board of Directors files a tentative budget with the Nevada Department of Taxation.
- 2. Public hearings on the tentative budget are held on the third Thursday in May.
- 3. Prior to June 1, at a public hearing, the Board indicates changes, if any, to be made to the tentative budget and adopts a final budget by the favorable vote of a majority of the members of the Board and by adopting a resolution. The final budget must then be forwarded to the Nevada State Tax Commission for final hearings and approval.
- 4. Formal budgetary integration in the financial records is employed to enhance management control during the year.
- 5. The budget is adopted on a basis consistent with General Accepted Account Principles (GAAP). Appropriations lapse at year end.

June 30, 2021

#### 2-A. Budgetary information (continued)

6. Budget amounts may be transferred if amounts do not exceed the original budget. Such transfers are to be approved with a resolution by the Board of Directors. Budget augmentations in excess of original budgetary amounts may not be made without prior approval of the Moapa Valley Water District Board of Directors, following a properly scheduled public hearing.

In accordance with State Statute and the Nevada Administrative Code, actual expenses may not exceed the sum of budgeted operating and non-operating expenses. See the supplementary schedule of revenues, expenses, and changes in net position - budget to actual.

#### **NOTE 3 - DETAILED NOTES**

#### 3-A. Deposits and investments

Cash and investments as of June 30, 2021 consist of the following:

Cash on hand	\$	8,996
Demand deposits		6,763,610
Total cash	\$6,	772,606

Cash and investments listed above are classified in the accompanying government-wide statement of net position as follows:

Total cash and cash equivalents	\$6,772,606
Restricted cash and cash equivalents (non-current)	556,184
Cash and cash equivalents - designated	861,792
Cash and cash equivalents	\$ 5,354,631

Cash equivalents and investments are carried at fair value in accordance with GASB Statement No. 31.

Deposits and investments of the District are governed by the Nevada Revised Statutes (NRS). The following are discussions of the District's exposure to various risks related to its cash management activities:

#### **Custodial Credit Risk**

For deposits this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal policy for custodial credit risk. As of June 30, 2021, none of the District's bank balance of \$6,816,703 was exposed to custodial credit risk because it was all insured or collateralized. Deposits not insured by FDIC or NCUA are collateralized because the District belongs to the Nevada Pooled Collateral program.

#### **Investments**

The provisions of State law (NRS 355.170) govern the investment of public funds. As of June 30, 2021, the District had no investments.

#### 3-B. Receivables

The allowance policy is described in Note 1-D-3. Receivables as of year-end for the District's funds are shown below:

Customers	\$ 459,565
Total accounts receivable	\$ 459,565

#### 3-C. Capital assets

A summary of capital asset activity is listed below:

	Beginning			Ending
	Balance	Additions	Retirements	Balance
Capital assets, not being depreciated:				
Land	\$ 218,296	\$ -	\$ -	\$ 218,296
Water shares	2,097,355	-	-	2,097,355
Construction in progress	381,998	255,168	(217,261)	419,904
Total capital assets, not being depreciated	2,697,649	255,168	(217,261)	2,735,555
Capital assets, being depreciated:

2037-2038	248,258	5,132	253,390	
Total	\$4,000,787	\$ 609,692	\$4,610,479	

June 30, 2021

#### **NOTE 4 - OTHER INFORMATION**

#### 4-A. Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District's insurance protection is provided by Willis. The coverage limit is \$10 million, and the deductible is \$500.

#### 4-B. Rounding convention

A rounding convention to the nearest whole dollar has been applied throughout this report, therefore the precision displayed in any monetary amount is plus or minus \$1. These financial statements are computer generated and the rounding convention is applied to each amount displayed in a column, whether detail item or total. As a result, without the overhead cost of manually balancing each column, the sum of displayed amounts in a column may not equal the total displayed. The maximum difference between any displayed number or total and its actual value will not be more than \$1.

#### 4-C. Deferred compensation plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all regular employees, permits them to defer a portion of their salary until future years. The District is not required to contribute or match any amounts withheld from employees' compensation. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

None of the amounts of compensation deferred under the plan, none of the property and rights purchased with those amounts, and none of the income attributable to those amounts, property or rights are the property of the District, or subject to the claims of the District's general creditors.

#### 4-D. Other Post-Employment Benefits

Management has reviewed the outstanding liability for Other Post-Employment Benefits (OPEB) as of June 30, 2021 and has determined that the amount is not material to the financial statements.

#### 4-E. General Information about the Pension Plan

#### Plan description:

PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

June 30, 2021

#### 4-E. General Information about the Pension Plan (continued)

#### **Benefits provided:**

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this factor is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575-.579.

#### **Vesting:**

Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service. The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

#### **Contributions:**

The authority for establishing and amending the obligation to make contributions and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. Contributions are shared equally by employer and employee. Employees can take a reduced salary and have contributions made by the employer (EPC) or can make contributions by a payroll deduction matched by the employer.

The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.

The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

The Statutory Employer/employee matching rate for the Regular for the fiscal year ended June 30, 2021 was 15.25%, and for years ended June 30, 2020, and 2019 was 14.5%. The Employer-pay contribution (EPC) rate for the years ended June 30, 2021, 2020 and 2019 was 29.75%, 29.25% and 28.00%, respectively.

June 30, 2021

#### 4-E. General Information about the Pension Plan (continued)

The District's contribution amounts were as follows:

Year Ended	Regular		
June 30,	Fund		
2019	\$	149,336	
2020		164,325	
2021		175,556	

#### **Investment Policy:**

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System. The following was the Board adopted policy target asset allocation as of June 30, 2020:

Asset Class	Allocation	Real Rate of Return*
Domestic Equity	42%	5.50%
International Equity	18%	5.50%
Domestic Fixed Income	28%	0.75%
Private Markets	12%	6.65%

<sup>\*</sup>As of June 30, 2020, PERS' long-term inflation assumption was 2.75%

#### **Pension Liability:**

Net Pension Liability

At June 30, 2021, the District reported a liability of \$2,196,255 for its proportionate share of the PERS' net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2020. The District's Net Pension Liability allocation was as follows:

	Proportionate
	Share
2019	0.01551%
2020	0.01577%
Increase (Decrease)	0.00026%

#### Pension Liability Discount Rate Sensitivity

The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	1%	Discount	1%
	Decrease	Rate	Increase
	(6.50%)	(7.50%)	(8.50%)
Proportionate share of			
Net pension liability	\$ 3,425,309	\$ 2,196,255	\$ 1,174,388

June 30, 2021

#### 4-E. General Information about the Pension Plan (continued)

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website www.nvpers.org.

#### **Actuarial Assumptions**

The System's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Rate	2.75%
Payroll Growth	5.00% including inflation
Investment Rate of Return	7.50%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.25% to 9.15% depending on service
	Rates include inflation and productivity increases
Consumer Price Index	2.75%
Other assumptions	Same as those used in June 30, 2019 funding
	Actuarial valuation

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of the experience review completed in 2017.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2020, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2020.

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions For the year ended June 30, 2021 the District recognized pension expense for PERS of \$167,903 At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Resources	
Differences between expected and actual experience	\$	68,236	\$	28,359
Changes in assumptions		61,690		-
Net difference between project and actual earnings on				
pension plan investments		-		82,965
Changes in proportion and differences between contributions				
and proportionate share of contributinos		41,097		135,131
Subtotal		171,023		246,455
Contributions subsequent to the measurement date		175,556		
Total	\$	346,579	\$	246,455

June 30, 2021

#### 4-E. General Information about the Pension Plan (continued)

The \$175,556 reported as deferred outflows of resources related to PERS pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS pensions will be recognized in pension expense as follows:

	Deferr	Deferred Outflows		
Year Ended June 30,	_(inflows	(inflows) of Resources		
2022	\$	140,820		
2023		(70,065)		
2024		(80,917)		
2025		(56,613)		
2026		(8,086)		
2027		(572)		
Thereafter		-		
	\$	(75,432)		

#### 4-G. Subsequent Events

In 2006 the District entered into a series of agreements designed to protect and acquire more water resources. The 2006 agreements allowed for a long term test pump in the coyote springs valley per Nevada State Engineer Order 1169.

There were unprecedented drawdowns of the regional carbonate aquifer that the District's largest producing well is perfected in during the test pump.

The test pump results required the Nevada State Engineer to issue ruling 1303 requiring all ground water users to file reports and opinions on how to best manage the limited water resources in the region.

The District retained the services of Greg Morrison with Parsons Behle & Latimer and Jay Lazarus with Glorieta Geoscience, Inc to defend the Districts water rights interest. The matter is currently unresolved as of June 30, 2021 and significant attorney's fees are expected in the future related to this matter.

REQUIRED SUPPLEMENTARY INFORMATION (Unaudited)

#### Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Directors and Members of the Board Moapa Valley Water District Overton, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the major fund of Moapa Valley Water District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Moapa Valley Water District's basic financial statements and have issued our report thereon dated September 13, 2021.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### Independent Auditor's Report on State Legal Compliance

Directors and Members of the Board Moapa Valley Water District Overton, Nevada

We have audited the basic financial statements of Moapa Valley Water District, for the year ended June 30, 2021, and have issued our report thereon dated September 13, 2021. Our audit also included test work on Moapa Valley Water District's compliance with selected requirements identified in the State of Nevada Revised Statutes (NRS) including, but not limited to, NRS section 354.624 and section 354.6241.

The management of Moapa Valley Water District is responsible for the District's compliance with all requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit and make specific statements regarding funds established and the status of prior year findings and recommendations; accordingly, we make the following statements:

The District has established one Enterprise Fund in accordance with NRS 354.625. The District appears to be using the funds expressly for the purposes for which it was created and in accordance with NRS 354.624. The fund is being administered in accordance with Generally Accepted Accounting Principles and the reserves, as applicable, appear reasonable and necessary to carry out the purposes of the fund. Sources of revenues available and retained earnings or net position are reflected in the fund financial statement.

The statutory and regulatory requirements of the funds are as follows:

Enterprise Fund: Board of director's intended purpose and County resolution

The District had no prior year audit finding. No new instances of noncompliance were noted during the fiscal year 2021.

The District has no funds to be reported pursuant to NRS 354.6107 through NRS 354.6113 and NRS 354.589155.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, Moapa Valley Water District complied, in all material respects, with the requirements identified above for the year ended June 30, 2021.

This report is intended solely for the use of Moapa Valley Water District, the State of Nevada, and other audit agencies and should not be used by anyone other than these specified parties.
